

## **Work Experience Questions**

If you are applying for work experience at Belake Research, please ensure you answer the following questions in your covering letter, ensuring you give examples. Examples can be drawn from professional, educational recreational and home life activities.

### **What makes you unique and exceptional?**

Belake Research is a unique and exceptional organisation, and prides itself on being able to provide the highest quality research that no-one else can. This is what sets us apart from other organisations. In what ways are you unique and exceptional, and what sets you apart from other candidates?

### **Can you give an example of having gone the extra mile?**

Belake Research's commitment to its customers is that we're never satisfied until their satisfied, and will go the extra mile to ensure their research needs are met. Can you give an example of where you have done something out of the ordinary for someone or gone that little bit further?

### **We're passionate about research. Are you?**

Why do you want to join our organisation? Why are you interested in research?

### **Can you demonstrate an occasion where you've had to use your honesty and integrity?**

We have built our reputation on giving the facts as they are, telling our customers the whole truth, not just what they want to hear, even when they don't want to hear it. Can you tell us how you've had to challenge or influence someone, using hard facts to prove your point of view?
